MHC's core function is to assist owner occupied and rental housing targeted to moderate and lower-income working families. We do this by providing housing finance products not available from other sources. We continually evolve our products to fit current and emerging housing needs throughout Mississippi.

OUR MISSION:
“To enhance Mississippi’s long-term economic viability by financing safe, decent, affordable housing and helping working families build wealth.”

There is no question that the need for affordable housing in Mississippi is tremendous. The state of Mississippi is constantly working to increase the quality and affordability of the housing stock available to low and moderate income Mississippians. Mississippi Home Corporation (MHC) was created by the Mississippi Home Corporation act of 1989 to address these housing needs. MHC plays a critical role in these efforts working with the Governor, the Mississippi Legislature, the U.S. Congressional delegation, and others in the affordable housing industry to develop private and public partnerships throughout the state and nation to increase the awareness of Mississippi's desperate need for affordable housing.

Enhancing Mississippians' Lives In 2016

MHC provided affordable housing for 1795 households across the state in 2016. Homes were financed through our Single Family Programs in 51 counties. MHC assisted individuals facing possible foreclosure with our Home Saver program, using Hardest Hit Funds, in 81 counties. MHC's Housing Tax Credit Program proved to be a boost to Mississippi's economy producing 534 jobs and \$19.2 million in wages for working families.
