MHC requires that a Quarterly Status Report (QSR) be completed for all projects that have been approved for BEP funding. Information pertaining to the properties must be current and consistent with the properties approved in the original application, unless a request for change has been approved by MHC. All reports must be emailed to hhf.bep@mshc.com by the last day of each quarter (March 31, June 30, September 30, and December 31). Failure to meet these deadlines may result in a delay in reimbursements.
