

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

Line #51: Cumulative is 10 more than the sum of the previous quarter's cumulative plus the current QTD. MHC has identified 10 files with the status of "Paid in Full", "Borrower still owns home" with closeout dates that were previously reported. As liens are released, the status is changed to "Paid in Full/Lien Release". The Counselor Direct software does not report on loans with this status. MHC is still working with Counselor Direct on this matter. MHC attributes the full records discrepancy to such record cleanup activity.			
Line #76: Cumulative is 10 more than the sum of the previous quarter's cumulative plus the current QTD. MHC underwriting staff periodically reviews current and closed records to ensure that all outcome checkboxes were properly filled out. MHC attributes the discrepancy to 10 borrowers (Borrower Still Owns Home) not previously counted which are now being counted by the Counselor Direct software that before were left out because certain fields were not checked. MHC attributes the full records discrepancy to such record cleanup activity.
